<sup>5</sup> HR 3199 is the USA PATRIOT Act reauthorization bill. Title VII of the bill is entitled the “Combat Meth Epidemic Act” (the CMEA). The CMEA combines: (1) Some provisions from HR 3889 (the “Meth Epidemic Elimination Act” or MEEA), which primarily dealt with international control of PSE; and (2) some provisions from S 103 (the “Combat Meth Act” or CMA), which primarily dealt with domestic control of PSE. However, unlike the CMA, the CMEA does not adopt the full OK-OR rule (it does not restrict retail sale of PSE products to pharmacies). HR 3199 was signed into law by the President on March 9, 2006.
